

Take your school's   
**learning outside today**

Large outdoor classroom

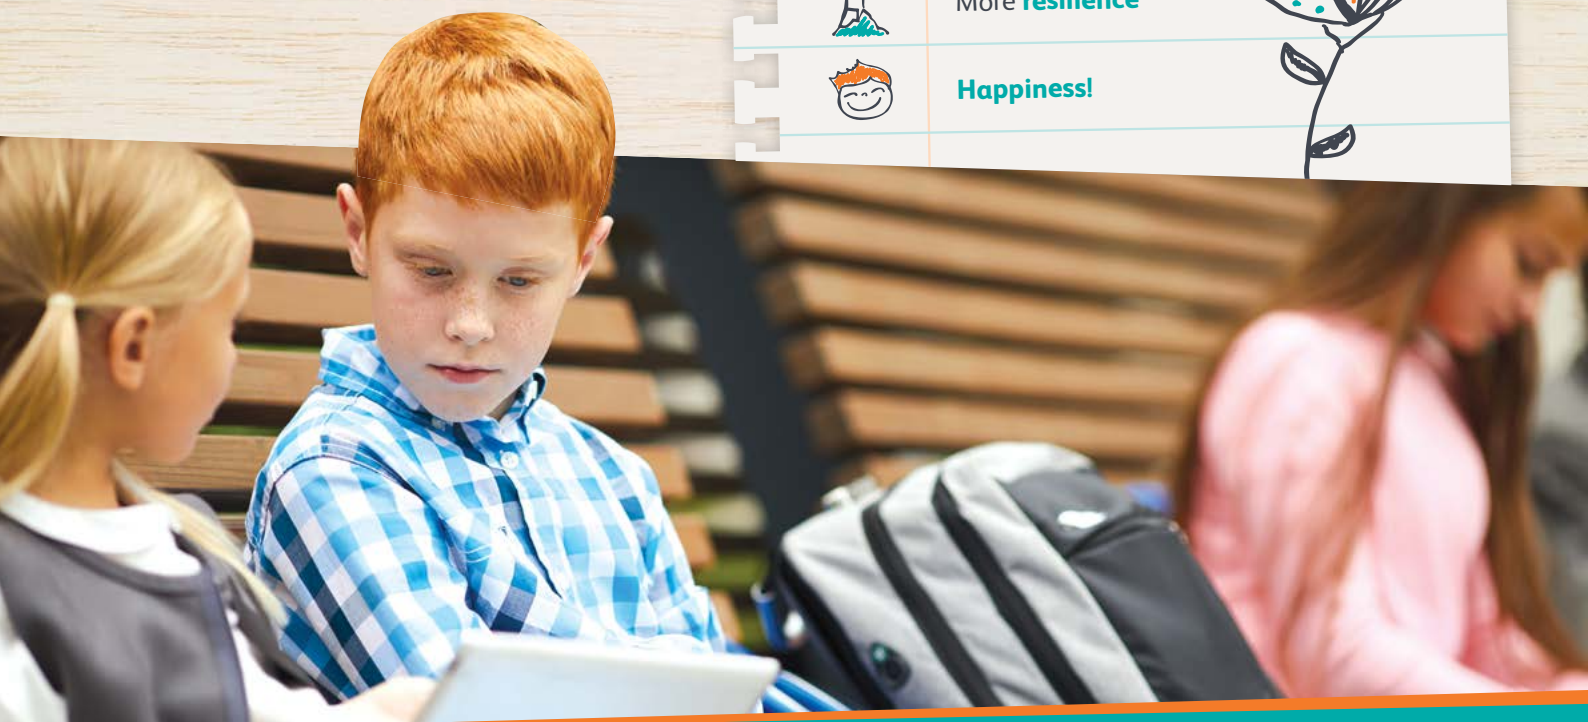

## We've got bright **ideas** for **outdoor classrooms**

Our outdoor classrooms make it fast, easy and affordable for you to open the door to a fresh approach to teaching that inspires active, creative and effective learning.

Our designs feature high quality, versatile and durable equipment and furniture specifically chosen to maximise engagement and enjoyment and support educators to take curriculum-based learning beyond the walls of the classroom.

Each concept can be adapted to suit your space, learning needs and budget!

|   |   |
|---|---|
|    | More <b>engaged</b> with learning                   |
|  | Improved <b>academic performance</b>                |

|  | Enhanced <b>teamwork</b>                            |
|  | Better <b>social skills</b>                         |
|  | Higher <b>self-esteem</b>                           |
|  | More <b>resilience</b>                              |
|  | <b>Happiness!</b>                                   |

Small outdoor classroom

## Outdoor classrooms are **changing** the **learning** landscape

Outdoor classrooms are a must for schools that want to provide a richer educational experience that's filled with fun, exciting and diverse learning and development opportunities both inside and outside the classroom.

The addition of a dedicated, outdoor learning space to your school grounds allows teachers to 'think outside the classroom' and explore innovative teaching models and new ways to apply the curriculum.

What's more, when teachers take learning outdoors, they report some powerful impacts. Children's behaviour improves, whole classes are excited to learn, and individuals who feel inhibited by a classroom-based curriculum thrive in an outdoor environment.

### Features

- Zoned, multi-purpose learning spaces up to 100m<sup>2</sup>
- Innovative electronic interactive play and learning technology
- Unique climbing net structure for balance and confidence challenges
- Climbing and social areas
- Musical instruments for sensory stimulation and gross and fine motor skills development
- Seating and collaboration areas
- Textured surface areas
- Trees and garden areas for shade and learning
- Inclusive areas
- Compliant with NZ, Australian and European Safety Standards
- Colour options available
- Robust Playground Centre warranties

Medium outdoor classroom

## Developmental benefits

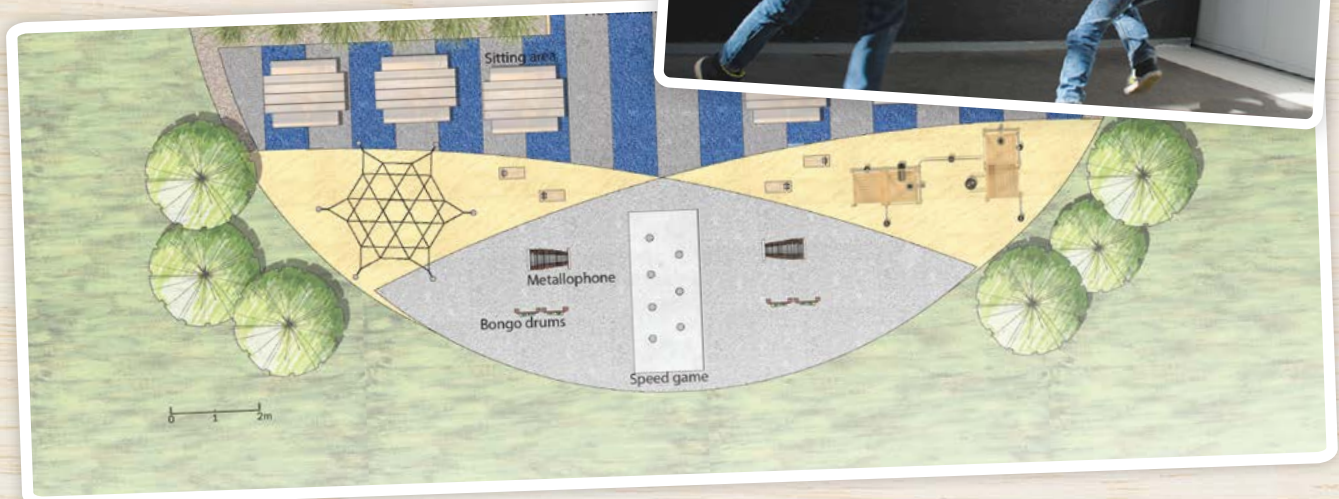

- Fitness and physical skills including speed, reflexes, and reaction time.
- Gross and fine motor skills plus hand-eye coordination.
- Better balance, agility, strength and stamina through climbing.
- Improved confidence and judgement through taking measured risks.
- Strengthened core muscles and improved upper body control.
- Sensory stimulation from electronic games (lights, sounds, and sequences).
- Sensory development from musical instruments (creating and exploring sounds, building neural pathways) and sand and water play (textures, measurements).
- Problem solving and decision making (scaling the net or rocks and planning a path).
- Social or solo benefits: climbing can be a shared adventure or solo challenge + playing with sand encourages side-by-side enjoyment.
- Imaginative and creative play.
- Seating and tables for group learning and social interaction.
- Spaces and places for children who need calm/ quiet time.

## Take learning outside and **reap** the **benefits**

Let's face it, just being outside has amazing benefits for everyone! Fresh air and a touch of sunshine can improve concentration, boost immunity and give a general feeling of wellbeing.

But, the latest research into outdoor classrooms reveals outdoor learning has a swathe of physical, cognitive and psychological benefits for children. In fact, children who are engaged in regular outdoor learning activities are showing improved results across the board!

Suits areas  
approx 30m<sup>2</sup>

Age appropriate for

Primary to Middle School Students

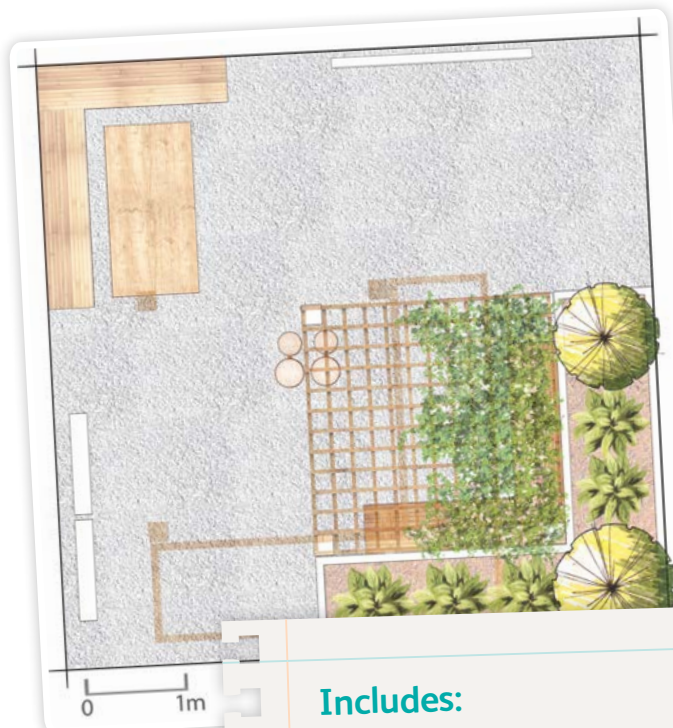

## Small outdoor classroom

Our outdoor classroom for smaller, more compact areas is an inviting, versatile space that is perfectly suited for both structured and unstructured learning activities.

Specifically designed for children aged 5 – 12 years, the layout includes a range of low-profile seating and tables, covered area and garden, and is arranged to allow students to learn together as a group or take part in individual or small group activities.

Children can stretch out on the platforms and sketch and draw, sit comfortably and listen to a book being read, experiment with sound and rhythm on the chimes and bongo drums, or engage in e-learning games on the interactive e-wall.

### Includes:

- Electronic interactive play and learning wall
- Bongo Drums
- Play Chimes
- Woodlands benches and table settings

Suits areas  
approx 60m<sup>2</sup>

Age appropriate for

 Primary to Middle School Students

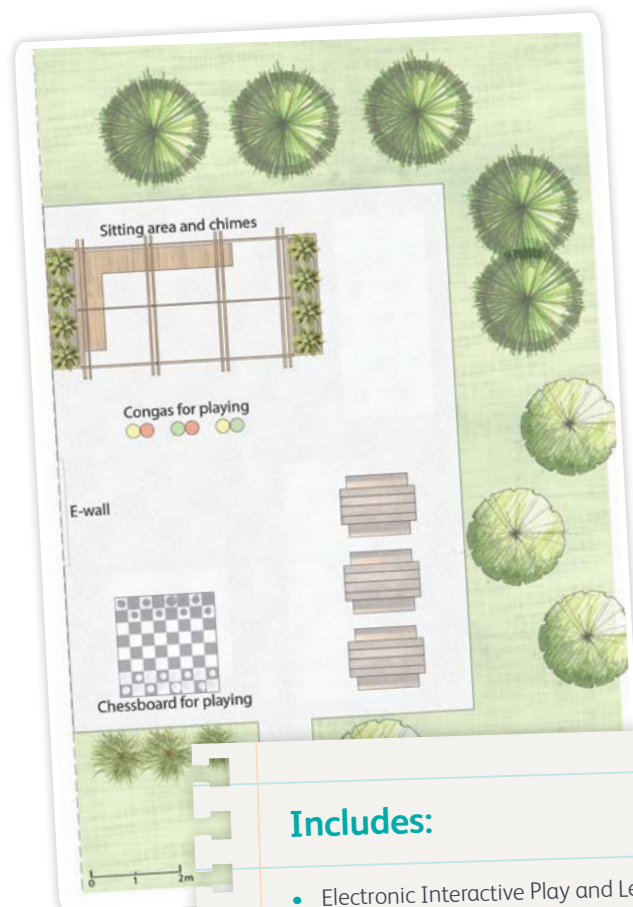

## Medium outdoor classroom

Space to learn! This outdoor classroom is a launchpad for teachers and students to engage with each other and learning in fresh and exciting ways.

The expansive paved area, framed by shade-giving trees and dotted with gardens, incorporates tables and seating and games. It's a welcoming, visually appealing space, fuelled with a positive energy that will ignite a passion for learning that will last a lifetime.

Ideally suited for Primary School-aged students, this outdoor classroom delivers a combination of innovative teaching tools including e-classroom technology adapted for the outdoors, as well as musical instruments that have been proven to improve communication, social skills and fine motor skills. While the over-sized chess board, a popular addition to school grounds, assists kids to develop critical thinking and reasoning and learn the important life lesson that actions have consequences.

### Includes:

- Electronic Interactive Play and Learning Wall
- Chess Board and pieces
- Conga Drums
- Play Chimes
- Woodlands benches and table settings

Age appropriate for

Primary to Middle School Students

## Large outdoor classroom

The sky's the limit! This outdoor classroom gives students the space to spread their wings and reach their full potential, in a supportive, encouraging and innovative teaching environment.

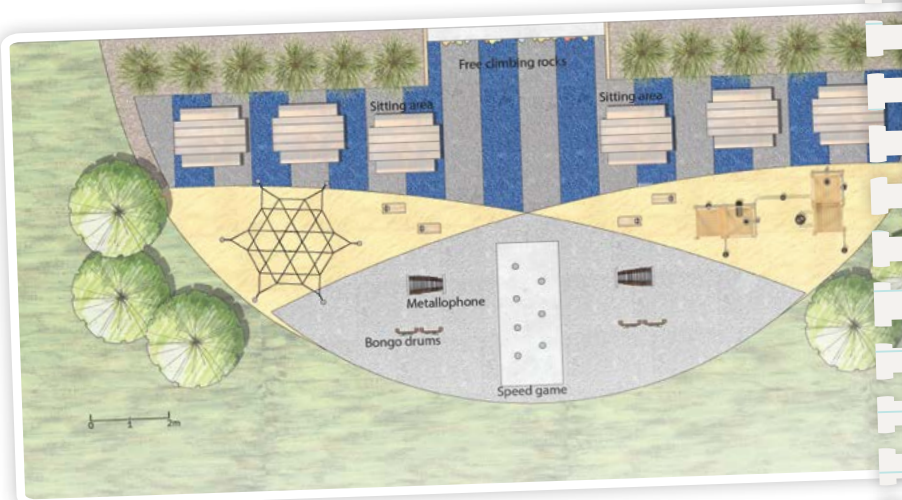

Inspired by the latest research, it's a fresh take on the outdoor classroom. Designed to enable educators to explore new teaching strategies, the concept features different zones that can be used to complement different areas of the curriculum – from science to art, music and PE. The large seating platforms can be used to complete written tasks, gather to listen to instructions or spread out to read, draw and paint.

Then, when it's action stations, children can break out into the zoned areas – to learn about confidence and strength on the free climbing rocks and net climbing structure; strengthen team work, sensory, fine and gross motor skills with sand play; challenge themselves and each other on the Speed Game (counting the seconds or timing each other); and explore sounds and rhythm on the musical instruments.

### Includes:

- Electronic Interactive Play
- Conga Drums
- Climbing and social net
- Free Climbing Rocks
- Interactive sand play
- Play Chimes
- Woodlands benches and table settings

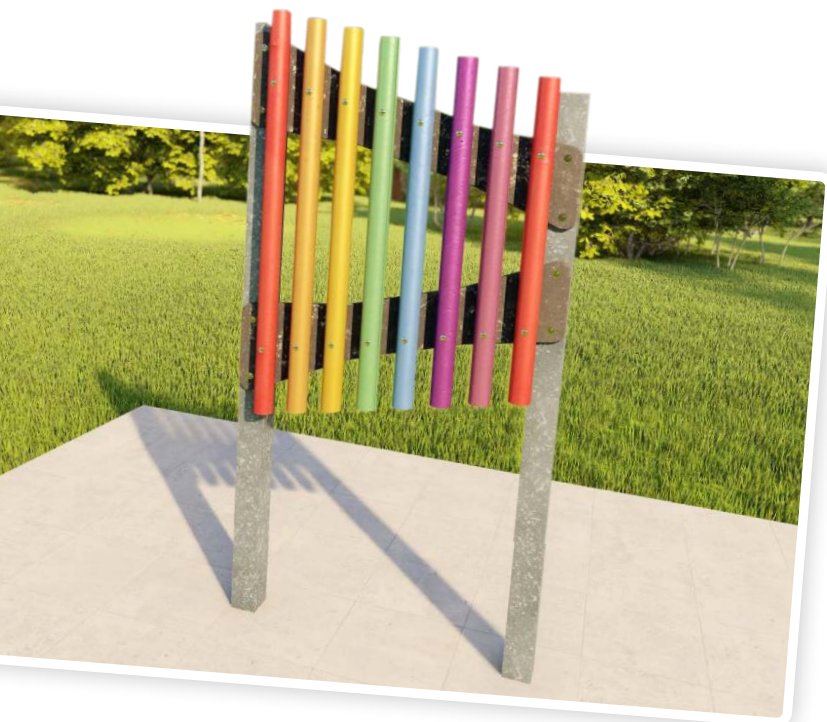

# Included products

## Electronic Interactive Play and Learning Wall

Combining the best of outdoor electronic games and physical activity, PlayAlive Speed is small in size but big on excitement. It includes three ready-to-go games: one for pairs to compete against each other to finish tasks, ping pong, and a high-energy game that requires players to beat their 'speed opponent'.
